

EAN:	4013288234254	Size:	115x60x25 mm
Part number:	05049003001	Weight:	125 g
Article number:	Tool-Check Modular Winkelschlüssel 1	Country of origin:	CZ
		Customs tariff number:	82079030

- Tool-Check Modular: individual combination of different Tool-Check Modular components
- L-key set for hexagonal socket screws; the Hex-Plus profile reduces cylindrical turning of hexagonal socket screws
- Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.
- Laser-engraved and thereby wear-resistant size markings on the L-keys
- Adapter 9549: Rigid component to connect further Tool-Check Modular products

Very compact 7-piece L-key set for hexagonal socket screws. The Hex-Plus profile offers larger contact surfaces in the screw head. The notch effect is reduced to a minimum and the destruction of the screw head is almost eliminated. The thoroughly chrome-plated design guarantees high corrosion protection. All L-keys are easily accessible due to their laser-engraved size markings. One adapter 9549 for Tool-Check Modular, which connects different Tool-Check Modular components. In the compact Tool-Check Modular.

Tool-Check Modular L-key 1

7-piece L-key set. Very compact storage in the Tool-Check Modular.

The Tool-Check Modular system

The Tool-Check Modular system offers the possibility of combining Tool-Check Modular products in a super-compact manner depending on requirements. All you need is the rigid adapter 9549 included in the set. The Tool-Check Modular products can be combined, exchanged or expanded at any time. A flexible connection, which can be folded up, is also possible with the flexible hinge 9550 (not included).

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Size identification

All L-keys are easily accessible due to their size markings.

Surface protection

Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.
